

Year-Round
Groups

English + Robotics Toronto 2027

Develop coding, robotics, and English communication skills through hands-on learning in downtown Toronto.

Our **English + Robotics program** combines interactive English lessons with practical robotics workshops, giving students the opportunity to build technical, coding, and problem-solving skills through engaging, project-based activities. Outside the classroom, students experience Canadian culture while exploring one of Canada's most diverse, innovative, and exciting cities.

Program Details

About the Program

Our **Robotics program** is available at Oxford International Toronto in partnership with Kids Coding School, a STEM-focused academy in downtown Toronto.

Students take part in engaging, project-based robotics lessons that build practical technical skills, confidence, and English communication through hands-on learning.

The program is delivered by CELTA-certified instructors with Computer Science degrees from leading universities.

Key Information

Ages: 12+

Minimum English Level: B1+

5+1 minimum group size

Closed classes: for students under 15 years

Duration: 2 weeks

*Oxford International Junior Programmes understands that occasionally slightly younger/older siblings or friends may wish to come in a group. Oxford International Junior Programmes reserves the right to accept students who are slightly younger or older than the advertised minimum/maximum age.

Highlights

15 hours of English lessons at OI Toronto + 9 hours of robotics each week in partnership with Kids Coding School.

Explore Toronto through exciting activities & robotics-themed excursions.

Learn from expert robotics instructors and build your foundational robotics knowledge.

Develop hands-on robotics and coding skills for future technology studies and careers.

Did You Know?

Kids Coding School delivers hands-on, project-based STEM learning designed to build real-world technical skills, confidence, and English communication.
